

## HOUSE FLOOR AMENDMENT EXPLANATION

Bill Number: **HB 2124**

Willoughby Floor Amendment

1. Prohibits current Certificate of Necessity (CON) holders, whose service areas overlap a proposed service area of an applicant that is a direct owner or indirect owner of a hospital and that is applying for a CON to perform only interfacility transport of patients to and from the applicant's health care institutions, from appealing the Director of the Department of Health Services' decision.
2. Restricts a CON holder, whose certificate of necessity allows only interfacility transport of patients as prescribed, from taking any action to prevent another CON holder from amending a CON to remove some or all of the CON holders' overlapping service area.
3. Removes the requirement for applying for a CON for ambulance services owned or operated by a direct or indirect owner of a hospital for interfacility transports.
4. Requires any ambulance service, holding a CON for interfacility transport and whose service area overlaps with the service area of a CON holder as prescribed, to have the right of first refusal to provide interfacility transportation with the ambulance service's service area if the transfer is made as stipulated.
5. Directs the transferring health care institution to document any communication made with each ambulance service holding a CON for interfacility transport and the interfacility transport details, as mandated.
6. Allows the transferring health care institution to make other interfacility transport arrangements for a patient if all ambulance services holding a CON for interfacility transport as prescribed decline to transport the patient.
7. Modifies the definition of *fit and proper* and defines *treating medical provider*.
8. Makes conforming changes.
